

ADDSiL™ 11958 Silicone Surfactant for Rigid Foam

INTRODUCTION

ADDSiL™ 11958 is a non-ionic silicone copolymer surfactant designed for rigid PU foam, which has good compatibility with many polyether. It is suitable for high water content, HCFC, HFC and hydrocarbon foaming systems.

BENEFITS

- High dimensional stability
- Excellent cell structure

PHYSICAL PROPERTIES

Color and Appearance	Viscous liquid
Viscosity 25°C	950-2600 cSt
Density 25°C	1.05
Flash Point	>96 °C

APPLICATIONS

ADDSiL™ 11958 rigid foam stabilizer is ideal for use in refrigerators, household appliances, and various types of pouring applications.

PACKING

ADDSiL™ 11958 is supplied in 200Kg steel drum or 1000Kg IBC tote.

STORAGE

In the original unopened packaging, ADDSiL™ 11958 has a shelf life of 24 months.

HANDLING

This document does not contain the product safety information required for safe use. Before handling, please refer to the product and safety data sheets, as well as container labels, for information on safe usage, physical hazards, and health risks. Safety Data Sheet is available on the website, from the distributor, or by contacting SiSiB customer service.

NOTE

All information in the leaflet is based on our present knowledge and experience. We reserve the right to make any changes according to technological progress or further developments. Performance of the product described herein should be verified by testing.

We specifically disclaim any other express or implied warranty of fitness for a particular purpose or merchantability.

We disclaim liability for any incidental or consequential damages.
