

ADDSiL™ 5026 Silicone Defoamer

INTRODUCTION

ADDSiL™ 5026 is a silicone defoamer designed for solvent-borne coating systems, adhesives, sealants, and polyurethane-based thermosets. It combines strong defoaming and air release performance with good compatibility and high safety in use.

EFFECTS

- Excellent defoaming and foam suppression
- Reduces surface defects such as pinholes, craters, fisheyes, and voids.
- Good compatibility

PHYSICAL PROPERTIES

Color	Colorless to light yellow
Appearance	Transparent liquid
Active Content	3%
Solvent	Solvent naphtha

Note: These values are typical and are not intended for use as specifications.

APPLICATIONS

ADDSiL™ 5026 is suitable for a wide range of solvent-borne coating systems, adhesives, sealants, and polyurethane thermosets.

RECOMMENDED DOSAGE

The recommended dosage is 0.1-1.0% of the total formulations.

For optimal performance, incorporate into the millbase or resin before adding other components. If added later, ensure sufficient shear for uniform distribution.

Pre-tests are recommended to determine the optimal level for each system.

PACKING

ADDSiL™ 5026 is available in 25kg pails or 180kg drums.

HANDLING

This document does not contain the product safety information required for safe use. Before handling, please refer to the product and safety data sheets, as well as container labels, for information on safe usage, physical hazards, and health risks. Safety Data Sheet is available on the website, from the distributor, or by contacting SiSiB customer service.

STORAGE

Keep in tightly sealed containers in well-ventilated place. Keep away from

ADDSiL™ 5026 Silicone Defoamer

heat. In original unopened packaging, ADDSiL™ 5026 has a shelf life of 24 months from the date of production.
