

SiSiB® DF1033 Silicone Defoamer

INTRODUCTION

SiSiB® DF1033 is a general-purpose, water-dispersible silicone defoamer. It provides rapid foam knockdown, good compatibility and reliable performance under high shear.

BENEFITS

- Rapid foam knockdown
- Good compatibility
- High-shear stability
- Dispersible in water

PHYSICAL PROPERTIES

Appearance	Milky white liquid
Non-volatile matter (wt%)	Min.30
pH value	6-8

These values are typical and are not intended for use as specifications

APPLICATIONS

SiSiB® DF1033 is suitable for foam control in a wide range of water-based formulations and industrial processes. It provides rapid foam knockdown and good compatibility, while maintaining its stability and defoaming performance under high-shear conditions.

USAGE GUIDELINES

SiSiB® DF1033 may be added directly to the foaming system or added after suitable dilution.

The recommended addition level is 0.03-0.10 wt%, based on the total formulation. The optimum dosage should be determined by application testing.

PACKING

SiSiB® DF1033 is supplied in 25Kg pail, 200Kg drum and 1000Kg IBC.

HANDLING

This document does not contain the product safety information required for safe use. Before handling, please refer to the product and safety data sheets, as well as container labels, for information on safe usage, physical hazards, and health risks. Safety Data Sheet is available on the website, from the distributor, or by contacting SiSiB customer service.

STORAGE

Stored in a dry and ventilated environment, SiSiB® DF1033 has a shelf life

SiSiB® DF1033 Silicone Defoamer

of one year.
