

Version 5.1R

Page 1 / 14

Revision Date 19.04.2019

SECTION 1: Identification of the substance/mixture and of the company**Product Identifier**

Product Name: ADDASIL™ 15300

Relevant identified uses of the substance or mixture and uses advised against

Relevant applications identified For industrial use

Details of the supplier of the safety data sheet**Company**Nanjing SiSiB Silicones Co., Ltd.
Guanghua Sci & Tech Industrial Zone,
No. 104, Guanghua Road, Nanjing 210007, P.R.China
Email: SDS@SiSiB.com

Emergency Telephone Number: +86-25-8468-0091

SECTION 2: Hazardous identification**Classification of the substance or mixture**

The product has not been classified as hazardous according to the legislation in force.

Classification according to Regulation (EC) No 1272/2008 as amended.

Not classified

Label elements

Not applicable

Supplemental label information:

EUH210: Safety data sheet available on request.

Additional information:

No data available.

Other hazards:

No data available.

SECTION 3: Composition/information on ingredients**Chemical nature: Polyalkyleneoxidemethylsiloxane Copolymer****Mixtures**

General information No data available.

Component	CAS No.	EC No.	Concentration	Notes
Octamethylcyclotetrasiloxane	556-67-2	209-136-7	≥0.1-1.0≤	PBT, vPvB
Decamethylpentasiloxane	541-02-6	208-764-9	≥0.1-1.0≤	vPvB
Dodecamethylcyclohexasiloxane	540-97-6	208-762-8	≥0.1-1.0≤	vPvB

All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by

Version 5.1R

Page 2 / 14

Revision Date 19.04.2019

volume. This substance has workplace exposure limit(s). PBT: persistent, bioaccumulative and toxic substance. vPvB: very persistent and very bioaccumulative substance.

Classification

Component	Classification
Octamethylcyclotetrasiloxane	Flam. Liq.: 3: H226; Repr.: 2: H361f; Aquatic Chronic: 2: H411;
Decamethylpentasiloxane	No data available.
Dodecamethylcyclohexasiloxane	No data available.

CLP: Regulation No. 1272/2008.

SECTION 4: First aid measures**General advice:**

Get medical attention if symptoms occur.

If inhaled:

Move into fresh air and keep at rest. Get medical attention if symptoms occur.

In case of eye contact:

Get medical attention if symptoms occur. If in eyes, hold eyes open, flood with water for at least 15 minutes and see a doctor.

In case of skin contact:

Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water. Get medical attention if symptoms occur.

If swallowed:

DO NOT induce vomiting. Get medical attention immediately. Do not give victim anything to drink if he is unconscious. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

Most important symptoms and effects, both acute and delayed: None known.

Indication of any immediate medical attention and special treatment needed

Hazards: No information about adverse effects due to exposure.

Treatment: If swallowed, do NOT induce vomiting. Give a glass of water.

SECTION 5: Firefighting measures**General Fire Hazards:**

Do not use water jet as an extinguisher, as this will spread the fire. Use water spray to keep fire-exposed containers cool.

Suitable extinguishing media:

Alcohol resistant foam. Carbon dioxide Dry chemical.

Unsuitable extinguishing media:

Avoid water in straight hose stream; will scatter and spread fire.

Special hazards arising from the substance or mixture:

Version 5.1R

Page 3 / 14

Revision Date 19.04.2019

In case of fire, carbon monoxide and carbon dioxide may be formed.

Advice for firefighters Special fire fighting procedures:

Take precautionary measures against static discharges. To prevent and minimize fire or explosion risk from static accumulation and discharge, effectively bond and/or ground product transfer system.

Special protective equipment for fire-fighters:

Wear self-contained breathing apparatus and protective clothing.

SECTION 6: Accidental release measures**Personal precautions, protective equipment and emergency procedures**

Avoid contact with eyes, skin, and clothing. Avoid contact with liquid and vapors. Use personal protective equipment. Use only in well-ventilated areas.

Environmental precautions

Do not allow runoff to sewer, waterway or ground.

Methods and materials for containment and clean up:

Absorb spillage with suitable absorbent material. Shovel up and place in a container for salvage or disposal.

Reference to other sections:

Remove sources of ignition. In case of spills, beware of slippery floors and surfaces. See Section 8 of the SDS for Personal Protective Equipment. Collect and dispose of spillage as indicated in section 13 of the SDS.

SECTION 7: Handling and storage**Precautions for safe handling**

Do not taste or swallow. Avoid contact with eyes, skin, and clothing. Wash hands after handling. Provide adequate ventilation. Avoid inhalation of dust and vapors.

Storage conditions:

Keep container tightly closed. Keep away from sources of ignition - No smoking. Do not allow material to freeze.

Conditions for safe storage, including any incompatibilities:

Keep container tightly closed. Keep away from sources of ignition - No smoking.

Storage Stability:

Material is stable under normal conditions.

Specific end use(s):

No data available.

SECTION 8: Exposure Controls/Personal Protection

Version 5.1R	Page 4 / 14	Revision Date 19.04.2019
--------------	-------------	--------------------------

Control parameters:

Occupational exposure limits:

None of the components have assigned exposure limits.

Biological Limit Values:

None

Exposure controls

Appropriate Engineering Controls:

Eyewash bottle with clean water. No special requirements under ordinary conditions of use and with adequate ventilation. Use only in well-ventilated areas.

Individual protection measures, such as personal protective equipment

General information:

Use only in well-ventilated areas. Do not eat, drink or smoke when using the product. Wash hands after handling. Practice good housekeeping.

Eye/face protection:

Safety glasses with side-shields conforming to EN166

Skin protection Hand Protection:

Advice: There is no risk to health due to contact with the chemical. Use hand protection to prevent mechanically injuries.

Other:

Safety shoes Long sleeves

Respiratory Protection:

In case of insufficient ventilation, wear suitable respiratory equipment.

Hygiene measures:

Observe good industrial hygiene practices. Wash hands after handling. When using do not eat, drink or smoke.

Provide adequate ventilation.

Environmental exposure controls:

No release to wastewater from process as such, wastewater emissions limited to release generated from final equipment cleaning step using water

SECTION 9: Physical and Chemical Properties

Information on basic physical and chemical properties:

Appearance:

Physical state:	Liquid
Color:	Colorless/Yellow
Odor:	Polyether
Odor threshold:	No data available

Version 5.1R	Page 5 / 14	Revision Date 19.04.2019
--------------	-------------	--------------------------

pH:	No data available
Melting point/freezing point:	No data available
Initial boiling point and boiling:	No data available
Flash point:	161°C GB/T 261-2008
Evaporation rate:	No data available
Upper/lower flammability:	No data available
Explosive limits:	No data available
Vapor pressure:	No data available
Vapor density:	Heavier than air
Relative density:	No data available
Density:	(0.96~1.00) g/cm ³ (25°C)
Solubility in water:	Insoluble in water, Soluble in polyols
Solubility (other):	No data available
Partition coefficient (n-octanol/water) Log Pow:	No data available.
Auto-ignition temperature:	No data available
Decomposition temperature:	Material is stable under normal conditions.
SADT:	No data available
Viscosity:	(75~105) m Pa.s/25°C
Explosive properties:	No data available
Oxidizing properties:	No classified as oxidizing

SECTION 10: Stability And Reactivity

Reactivity:	No data available.
Chemical stability:	Material is stable under normal conditions.
Possibility of hazardous reactions:	Hazardous polymerization does not occur.
Conditions to avoid:	None known.
Incompatible materials:	Inorganic halides. Strong oxidizing agents.
Hazardous decomposition Products:	Carbon oxides. Oxides of silicon. Measurements at temperatures above 150°C in presence of air (oxygen) have shown that small amounts of formaldehyde are formed due to oxidative degradation.

SECTION 11: Toxicological Information

Information on likely routes of exposure

Inhalation: No data available.

Ingestion: No data available.

Skin Contact: No data available.

Eye contact: No data available.

Information on toxicological effects Acute toxicity**Oral**

Product:

LD 50 (Rat): > 2.000 mg/kg (OECD-Guideline 401 (Acute Oral Toxicity))

Specified substance(s)

Octamethylcyclotetrasiloxane: LD 50 (Rat): 4.800 mg/kg

Decamethylpentasiloxane: LD 50 (Rat): > 60.000 mg/kg

Dodecamethylcyclohexasiloxane: LD 50 (Rat): 2.000 mg/kg

Dermal

Product:

LD 50 (Rat): > 2.000 mg/kg (OECD-Guideline 402 (Acute Dermal Toxicity)) Not classified

Specified substance(s)

Octamethylcyclotetrasiloxane: LD 50 (Rat): > 2.400 mg/kg

Decamethylpentasiloxane: LD 50 (Rabbit): > 15.000 mg/kg

Dodecamethylcyclohexasiloxane: LD 50 (Rat): 2.000 mg/kg

Inhalation

Product: Not classified for acute toxicity based on available data.

Specified substance(s)

Octamethylcyclotetrasiloxane: LC50 (Rat, 4 h): 36 mg/l

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: No data available.

Repeated dose toxicity

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane:

NOAEL (Rat(male and female), Inhalation -vapor(vapour)): 150 mg/kg

(Rabbit(male and female), Dermal): 950 mg/kg

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: NOAEL (Rat(male and female), Oral): 1.000 mg/kg

Skin Corrosion/Irritation:

Product: OECD-Guideline 404 (Acute Dermal Irritation/Corrosion)

(Rabbit): No skin irritation

Specified substance(s)

Octamethylcyclotetrasiloxane:

OECD-Guideline 404 (Acute Dermal Irritation/Corrosion)

(Rat): No skin irritation

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane:

OECD-Guideline 404 (Acute Dermal Irritation/Corrosion)

(Rabbit, 72 h): No skin irritation

Serious Eye Damage/Eye

Irritation: No eye irritation

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane:

OECD-Guideline 405 (Acute Eye Irritation/Corrosion)

(Rabbit): Not irritating

Decamethylpentasiloxane: (Rabbit): No eye irritation

Dodecamethylcyclohexasiloxane:

OECD-Guideline 405 (Acute Eye Irritation/Corrosion)

(Rabbit, 72 h): No eye irritation Not irritating

Respiratory or Skin Sensitization:

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane: OECD-Guideline 406 (Skin Sensitisation) (Guinea Pig) Not sensitizing

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: Maximisation Test, OECD-Guideline 406 (Skin Sensitization) (Guinea Pig): negative

Germ Cell Mutagenicity

In vitro

Product:

Ames-Test (OECD-Guideline 471 (Genetic Toxicology: Salmonella typhimurium, Reverse Mutation Assay)): negative (not mutagenic)

Specified substance(s)

Octamethylcyclotetrasiloxane: Ames-Test (OECD-Guideline 471 (Genetic Toxicology: Salmonella typhimurium, Reverse Mutation Assay)): negative (not mutagenic)

Mouse Lymphoma Assay (OECD Guideline 476): negative (not mutagenic)

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: Ames-Test (OECD-Guideline 471 (Genetic Toxicology: Salmonella typhimurium, Reverse Mutation Assay)): negative

In vivo

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane: Chromosomal aberration (OECD-Guideline 474 (Genetic Toxicology: Micronucleus Test)) Inhalation (Rat, male and female): negative

Dominant lethal assay (OECD 478) Oral (Rat, male and female): negative

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: OECD-Guideline 474 (Genetic Toxicology: Micronucleus Test)
(OECD-Guideline 474 (Genetic Toxicology: Micronucleus Test)) Intraperitoneal (Mouse, male and female):
negative

Carcinogenicity

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane: No data available.

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: No data available.

Reproductive toxicity

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane: No data available.

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: No data available.

Specific Target Organ Toxicity - Single Exposure

Product: No data available.

Octamethylcyclotetrasiloxane: No data available.

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: No data available.

Specific Target Organ Toxicity - Repeated Exposure

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane: No data available.

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: No data available.

Aspiration Hazard

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane: No data available.

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: No data available.

Aspiration Hazard

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane: No data available.

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: No data available.

Other effects:

Octamethylcyclotetrasiloxane (D4) Ingestion: Rodents given large doses via oral gavage of Octamethylcyclotetrasiloxane (1600mg/kg/day, 14 days), developed increased liver weights relative to unexposed control animals due to hepatocellular hyperplasia (increased number of liver cells which appear normal) as well as hypertrophy (increased cell size). Inhalation: In inhalation studies, laboratory rodents exposed to Octamethylcyclotetrasiloxane (300 ppm five days/week, 90 days) developed increased liver weights in female animals relative to unexposed control animals. When the exposure was stopped, liver weights returned to normal.

Microscopic examination of the liver cells did not show any evidence of pathology. This response in rats, which does not affect the animal's health, is well-documented and widely recognized. It is related to an increase of liver enzymes that metabolize and eliminate a material from the body. The increased liver weight reverses even while the D4 exposure continues. The finding is not adverse, but is considered a natural adaptive change in rats, and does not represent a hazard to humans. Inhalation studies utilizing laboratory rabbits and guinea pigs showed no effects on liver weights. Inhalation exposures typical of industrial usage (5-10 ppm) showed no toxic effects in rodents. Range finding reproductive studies were conducted (whole body inhalation, 70 days prior to mating, through mating, gestation and lactation), with D4. Rats were exposed to 70 and 700 ppm. In the 700 ppm group, there was a statistically significant reduction in mean litter size and in implantation sites. No D4 related clinical signs were observed in the pups and no exposure related pathological findings were found. A two-year, combined chronic/carcinogenicity study, during which rats were exposed to D4 by inhalation, data showed a statistically significant increase in a benign uterine tumor in female rats exposed at the highest level--a level much higher than the low levels that consumers or workers may encounter. An expert panel of independent scientists who have reviewed the results of this research concur that the finding seen in the two-year study occurred through a biological pathway that is specific to the rat and is not relevant to humans. Therefore, this observed effect does not indicate a potential health hazard to humans. In developmental toxicity studies, rats and rabbits were exposed to D4 at concentrations up to 700 ppm and 500 ppm, respectively. No teratogenic effects (birth defects) were observed in either study.

SECTION 12: Ecological Effects

Toxicity

Acute toxicity

Fish

Product: No data available

Specified substance(s)

Octamethylcyclotetrasiloxane: No data available.

Decamethylpentasiloxane:

(Oncorhynchus mykiss, 14 d): > 16 mg/l

NOEC (Oncorhynchus mykiss, 14 d): 16 mg/l

Dodecamethylcyclohexasiloxane: No data available.

Aquatic Invertebrates

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane: No data available

Decamethylpentasiloxane: No data available

Dodecamethylcyclohexasiloxane: No data available

Chronic Toxicity**Fish**

Product: No data available.

Octamethylcyclotetrasiloxane: No data available.

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: NOEC (Pimephales promelas, 49 d): 0,0044 mg/l

Aquatic Invertebrates

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane: No data available.

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane:

NOEC (Daphnia magna, 21 d): 0,0046 mg/l EC50

(Sediment Invertebrate, 28 d): >= 420 mg/l

Toxicity to Aquatic Plants

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane: No data available.

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: EC50 (Algae (Pseudokirchneriella subcapitata), 72 h): >0,002 mg/l

(OECD Test Guideline 201) NOEC (Algae (Pseudokirchneriella subcapitata), 72 h): >= 0,002 mg/l

(OECD Test Guideline 201)

Persistence and Degradability**Biodegradation**

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane: (29 d, 310 Ready Biodegradability - CO₂ in Sealed Vessels (Headspace Test)): 3,7 % Persistent Not readily biodegradable.

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: No data available.

BOD/COD Ratio

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane: No data available.

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: No data available.

Bioaccumulative potential

Product: No data available.

Specified substance(s)

Octamethylcyclotetrasiloxane: Fathead Minnow, Bioconcentration Factor (BCF): 12,40

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: No data available.

Mobility in soil: No data available.

Known or predicted distribution to environmental compartments

Octamethylcyclotetrasiloxane: No data available.

Decamethylpentasiloxane: No data available.

Dodecamethylcyclohexasiloxane: No data available.

Results of PBT and vPvB assessment:

Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very Bioaccumulative (vPvB)

Octamethylcyclotetrasiloxane

Persistent, Bioaccumulative and Toxic (PBT), very Persistent and very Bioaccumulative (vPvB)

Octamethylcyclotetrasiloxane (D4) meets the current EU REACH Annex XIII criteria for PBT and vPvB and has been added to the candidate list for Substances of very high concern (SVHC). However, D4 does not behave similarly to known PBT/vPvB substances. The silicones industries interpretation of the available data is that the weight of scientific evidence from field studies shows that D4 is not biomagnifying in aquatic and terrestrial food webs. D4 in air will degrade by naturally occurring reactions in the atmosphere. Any D4 in air that does not degrade by these reactions is not expected to deposit from the air to water, to land, or to living organisms.

Decamethylpentasiloxane

vPvB: very persistent and very bioaccumulative substance.

Decamethylcyclopentasiloxane (D5) meets the current EU REACH Annex XIII criteria for vPvB and has been added to the candidate list for Substances of very high concern (SVHC). However, D5 does not behave similarly to known PBT/vPvB substances. The silicones industries interpretation of the available data is that the weight of scientific evidence from field studies shows that D5 is not biomagnifying in aquatic and terrestrial food webs. D5 in air will degrade by naturally occurring reactions in the atmosphere. Any D5 in air that does not degrade by these reactions is not expected to deposit from the air to water, to land, or to living organisms.

Dodecamethylcyclohexasiloxane

vPvB: very persistent and very bioaccumulative substance.

Dodecamethylcyclohexasiloxane (D6) meets the current EU REACH Annex XIII criteria for vPvB and has been added to the candidate list for Substances of very high concern (SVHC). However, D6 does not

Version 5.1R

Page 12 / 14

Revision Date 19.04.2019

behave similarly to known PBT/vPvB substances. The silicones industries interpretation of the available data is that the weight of scientific evidence from field studies shows that D6 is not biomagnifying in aquatic and terrestrial food webs. D6 in air will degrade by naturally occurring reactions in the atmosphere. Any D6 in air that does not degrade by these reactions is not expected to deposit from the air to water, to land, or to living organisms

Other adverse effects: No data available.

SECTION 13: Disposal considerations**Waste treatment methods**

General information: No data available.

Disposal methods: Can be incinerated when in compliance with local regulations.

SECTION 14: Transport Information

ADR: Not regulated.

AND: Not regulated.

RID: Not regulated.

IMDG: Not regulated.

IATA: Not regulated.

Special precautions for user:

This product is not regarded as dangerous goods according to the national and international regulations on the transport of dangerous goods. Keep away from foodstuffs and animal feed.

Transport in bulk according to Annex II of MARPOL and the IBC Code:

Not applicable

Special precautions for user:

This product is not regarded as dangerous goods according to the national and international regulations on the transport of dangerous goods.

Keep away from foodstuffs and animal feed.

SECTION 15: Regulatory Information**Safety, health and environmental regulations/legislation specific for the substance or mixture: EU Regulations**

Regulation (EC) No. 2037/2000 Substances that deplete the ozone layer:

None

Regulation (EC) No. 850/2004 on persistent organic pollutants:

None
