--	--	--------------	-------------	--------------------------

# SECTION 1: Identification of the substance/mixture and of the company

Product Identifier			
Product Name:	POWSIL™ 59223		
Relevant identified uses of the sub	stance or mixture and uses advised against		
Relevant applications identified	For industrial use		
Details of the supplier of the safety data sheet			
Company	Nanjing SiSiB Silicones Co., Ltd.		
	Guanghua Sci & Tech Industrial Zone,		
	No. 104, Guanghua Road, Nanjing 210007, P.R.China		
	Email: SDS@SiSiB.com		
Emergency Telephone Number:	+86-25-8468-0091		

## **SECTION 2: Hazardous identification**

Summary of hazard in an emergence	y situation
Liquid. Mixes with water. Irritating to sl	kin.
Classification of hazards	
Skin Corrosion/Irritation Category 3	
Chronic Aquatic Hazard Category 3	
Acute Aquatic Hazard Category 2	
Label elements	
GHS label elements	Not Applicable
Signal word	Warning
Hazard statement(s)	
H316	Causes mild skin irritation.
H401	Toxic to aquatic life
H412	Harmful to aquatic life with long lasting effects.
Precautionary statement(s)	
Precautions	
P273	Avoid release to the environment
Incident response	
P332+P313	If skin irritation occurs: Get medical advice/attention
Safe storage	
Not Applicable	
Waste disposal	
P501	Dispose of contents/container in accordance with local regulations
Physical and Chemical Hazard	
Liquid. Mixes with water. Toxic smoke	/fumes in a fire.
Health Hazards	

# SAFETY DATA SHEET

## **POWSIL<sup>™</sup> 59223**

Version 5.1R	Page 2 / 10	Revision Date 09.12.2020
--------------	-------------	--------------------------

#### Inhaled

The material is not thought to produce adverse health effects or irritation of the respiratory tract (as classified by EC Directives using animal models).

Nevertheless, good hygiene practice requires that exposure be kept to a minimum and that suitable control measures be used in an occupational setting.

#### Ingestion

Ingestion of the material may be damaging to the health of the individual.

#### **Skin Contact**

This material can cause inflammation of the skin on contact in some persons. Open cuts, abraded or irritated skin should not be exposed to this material.

#### Eye

This material can cause eye irritation and damage in some persons.

#### **Environmental Hazards**

See Section 12

#### Other hazards

Cumulative effects may result following exposure.

### **SECTION 3: Composition/information on ingredients**

#### **Chemical properties**

Mixture

#### **Composition Information**

CAS No. %[weight]		Name		
519142-86-0	9142-86-0 30.0-35.0 Polyether & quaternary modified silicone			
68937-55-3	5.0-10.0 Polysiloxanes, di-Me,3-hydroxypropyl Me, ethoxylatedpropoxylated			
68131-39-5 13.0-15.0 Alkyl alcohol polyethoxylate		Alkyl alcohol polyethoxylate		
64-19-7	<1.0	Acetic acid		
7732-18-5 Until 100 water		water		

### **SECTION 4: First aid measures**

#### Description of first aid measures

#### Eye contact

Wash out immediately with fresh running water.

Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.

Seek medical attention without delay; if pain persists or recurs seek medical attention.

Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.

#### Skin contact

Immediately remove all contaminated clothing, including footwear.

# SAFETY DATA SHEET

# POWSIL<sup>™</sup> 59223

Version 5.1R	Page 3 / 10	Revision Date 09.12.2020
	- <b>J</b>	

Flush skin and hair with running water (and soap if available).

Seek medical attention in event of irritation.

#### Inhalation

If fumes, aerosols or combustion products are inhaled remove from contaminated area.

Other measures are usually unnecessary.

#### Ingestion

Immediately give a glass of water.

First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.

#### Advise for rescue team (PPE requirement for rescue personnel)

Wear portable respiratory protective devices if get into the scene of the accident.

Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

### **SECTION 5: Firefighting measures**

#### **Extinguishing media**

Water spray or fog. Foam. Dry chemical powder. BCF (where regulations permit). Carbon dioxide.

#### Special hazards arising from the substance or mixture

#### **Fire Incompatibility**

Avoid contamination with oxidizing agents i.e. nitrates, oxidizing acids, chlorine bleaches, pool chlorine etc. as ignition may result.

#### Advice for firefighters

Alert Fire Brigade and tell them location and nature of hazard.

Wear full body protective clothing with breathing apparatus.

Prevent, by any means available, spillage from entering drains or water course.

Use water delivered as a fine spray to control fire and cool adjacent area.

DO NOT approach containers suspected to be hot.

Cool fire exposed containers with water spray from a protected location.

If safe to do so, remove containers from path of fire.

#### **Fire/Explosion Hazard**

Combustible.

Slight fire hazard when exposed to heat or flame.

Heating may cause expansion or decomposition leading to violent rupture of containers.

On combustion, may emit toxic fumes of carbon monoxide (CO).

May emit acrid smoke.

Mists containing combustible materials may be explosive.

Combustion products include:

Carbon dioxide (CO2),

Other pyrolysis products typical of burning organic material

May emit poisonous fumes.

SiSiB SILICONES - A part of SINOPCC group.

Version 5.1R	Page 4 / 10	Revision Date 09.12.2020
	ruge r, re	

May emit corrosive fumes.

### **SECTION 6: Accidental release measures**

## Personal precautions, protective equipment and emergency procedures **Minor Spills** Clean up all spills immediately. Avoid contact with skin and eyes, by using protective equipment. Collect the leakage, place in a suitable, labelled container for waste disposal. Major Spills Alert Fire Brigade and tell them location and nature of hazard. Use protective equipment to avoid contact with skin and eyes Contain spill with sand, earth or vermiculite. Collect recoverable product into labelled containers for recycling. Collect residues and seal in labelled drums for disposal. If contamination of drains or waterways occurs, advise emergency services. Personal Protective Equipment advice is contained in Section 8 of the SDS. **Measures for Preventing Secondary Contamination** Refer to section above **Environmental precautions:** See section 12

### **SECTION 7: Handling and storage**

#### Handling

#### Precautions for safe handling

Avoid all personal contact, including inhalation.

Wear protective clothing when risk of exposure occurs.

Use in a well-ventilated area.

Prevent concentration in hollows and sumps.

DO NOT enter confined spaces until atmosphere has been checked.

Avoid smoking, naked lights or ignition sources.

Avoid contact with incompatible materials.

When handling, DO NOT eat, drink or smoke.

Keep containers securely sealed when not in use.

Avoid physical damage to containers.

Always wash hands with soap and water after handling.

Work clothes should be laundered separately.

Use good occupational work practice.

Observe manufacturer's storage and handling recommendations contained within this SDS.

# SAFETY DATA SHEET

## POWSIL<sup>™</sup> 59223

Version 5.1R	Page 5 / 10	Revision Date 09.12.2020
--------------	-------------	--------------------------

Atmosphere should be regularly checked against established exposure standards to ensure safe working conditions.

#### Other information

Store in original containers.

Keep containers securely sealed.

No smoking, naked lights or ignition sources.

Store in a cool, dry, well-ventilated area.

Store away from incompatible materials and foodstuff containers.

Protect containers against physical damage and check regularly for leaks.

Observe manufacturer's storage and handling recommendations contained within this SDS.

#### Conditions for safe storage, including any incompatibilities

#### Suitable container

Metal can, plastic tank or drum

Packaging as recommended by manufacturer.

Check all containers are clearly labelled and free from leaks.

#### Storage incompatibility

Avoid reaction with oxidizing agents

#### **SECTION 8: Exposure Controls/Personal Protection**

#### **Control parameters**

#### **Occupational exposure limits (OEL)**

#### Ingredient data

## POWSIL<sup>™</sup> 59223

Version 5.1R	Page 6 / 10	Revision Date 09.12.2020
	- 3	

#### Appropriate engineering controls

Engineering controls are used to remove a hazard or place a barrier between the worker and the hazard. Well-designed engineering controls can be highly effective in protecting workers and will typically be independent of worker interactions to provide this high level of protection. General exhaust is adequate under normal operating conditions. Local exhaust ventilation may be required in specific circumstances. If risk of overexposure exists, wear approved respirator. Correct fit is essential to obtain adequate protection. Provide adequate ventilation in warehouse or closed storage areas. Air contaminants generated in the workplace possess varying "escape" velocities which, in turn, determine the "capture velocities" of fresh circulating air required to effectively remove the contaminant. Process controls which involve changing the way a job activity or process is done to reduce the risk.

Personal protection

Eye/face protection Safety glasses with side shields. Chemical goggles. Skin protection See Hand protection below Hands/feet protection Wear chemical protective gloves, e.g. PVC. Wear safety footwear or safety gumboots, e.g. Rubber **Body Protection** See Other protection below Other protection Overalls. P.V.C. apron. Eye wash unit. **Respiratory protection** Not Available

## **SECTION 9: Physical and Chemical Properties**

#### Information on basic physical and chemical properties

Appearance	Colorless to light yellow transparent viscous liquid
Odor	Sight odor
Odor threshold	No data available
pH as a solution (1%)	4.0-6.0
Melting point / freezing point (°C)	No data available
Initial boiling point	No data available
and boiling range (°C)

#### **SECTION 13:**Disposal considerations

#### Waste chemicals

Treatment must be in accordance with applicable Federal, State/Provincial, and Local regulations Recycle as much as possible, try to avoid and reduce waste

DO NOT discharge the waste into drains

#### **Contaminated packing materials**

Packaging may contain residual chemicals, Treatment must be in accordance with applicable Federal, State/Provincial, and Local regulations

Recycle or reuse of cleaned materials should be in accordance with applicable Federal, State/Provincial, and Local regulations

#### **Precautions for Transport**

Attentions of operation, treatment and precautions of workers should be referred to the content of section 7 and section 8
