SAFETY DATA SHEET

POWSIL[™] 59800

| rsion 6.1S Page | 1 / 10 | Revision Date 06.01.2021 |
|-----------------|--------|--------------------------|
|-----------------|--------|--------------------------|

SECTION 1: Identification of the substance/mixture and of the company

| Product Identifier | |
|---------------------------------------|---|
| Product Name: | POWSIL™ 59800 |
| Relevant identified uses of the sub | stance or mixture and uses advised against |
| Relevant applications identified | For industrial use |
| Details of the supplier of the safety | / data sheet |
| Company | Nanjing SiSiB Silicones Co., Ltd. |
| | Guanghua Sci & Tech Industrial Zone, |
| | No. 104, Guanghua Road, Nanjing 210007, P.R.China |
| | Email: SDS@SiSiB.com |
| Emergency Telephone Number: | +86-25-8468-0091 |

SECTION 2: Hazardous identification

| Summary of hazard in an emergen | cy situation |
|---|---|
| Liquid. Mixes with water. Irritating to e | eyes. |
| Classification of hazards | |
| Skin Corrosion/Irritation | Category 2 |
| Eye Irritation | Category 2A |
| Acute Aquatic Hazard | Category 2 |
| Label elements | |
| | \wedge |
| | |
| Pictogram | $\mathbf{\nabla}$ |
| Signal word | Warning |
| Hazard statement(s) | |
| H315 | Causes skin irritation. |
| H319 | Causes serious eye irritation. |
| H401 | Toxic to aquatic life. |
| Precautionary statement(s) | |
| Precautions | |
| P273 | Avoid release to the environment. |
| P280 | Wear protective gloves/protective clothing/eye protection/face |
| | protection. |
| P264 | Wash all exposed external body areas thoroughly after handling. |
| Incident response | |
| P305+P351+P338 | IF IN EYES: Rinse cautiously with water for several minutes. |
| | Remove contact lenses, if present and easy to do. Continue |
| | rinsing. |
| | |

SAFETY DATA SHEET

|---|-------------------------------|--|--|--|--|
| P337+P313 If eye irritation persists: Get medical advice/attention. | | | | | |
| P332+P313 | • | If skin irritation occurs: Get medical advice/attention. | | | |
| Safe storage | | | | | |
| Not Applicable | | | | | |
| Waste disposal | | | | | |
| P501 | Dispose of c | contents/container in accordance with local regulations | | | |
| Physical and Chemica | | , i i i i i i i i i i i i i i i i i i i | | | |
| Liquid. Mixes with wate | | | | | |
| Health Hazards | | | | | |
| Inhaled | | | | | |
| The material is not thou | ught to produce adverse hea | alth effects or irritation of the respiratory tract (as | | | |
| | ives using animal models). | | | | |
| Nevertheless, good hy | giene practice requires that | exposure be kept to a minimum and that suitable | | | |
| control measures be us | sed in an occupational settir | ng. | | | |
| Ingestion | | | | | |
| Ingestion of the materia | al may be damaging to the h | ealth of the individual. | | | |
| Skin Contact | | | | | |
| This material can cause | e inflammation of the skin o | n contact in some persons. Open cuts, abraded or | | | |
| irritated skin should not | t be exposed to this materia | I. | | | |
| Еуе | | | | | |
| This material can cause | e eye irritation and damage | in some persons. | | | |
| Environmental Hazard | ds | | | | |
| See Section 12 | | | | | |
| Other hazards | | | | | |
| | | | | | |

SECTION 3: Composition/information on ingredients

Chemical properties

Mixture

Composition Information

| CAS No. | %[weight] | Name |
|------------|-----------|---|
| 71750-79-3 | 35.0-45.0 | Dimethyl, (Aminoethylaminopropyl)methyl Siloxane, |
| | | Trimethylsiloxy-terminated |
| 68131-39-5 | 18.0-23.0 | Alkyl alcohol polyethoxylate |
| 64-19-7 | <1.0 | Acetic acid |
| 7732-18-5 | Until 100 | Water |

SECTION 4: First aid measures

Description of first aid measures

SAFETY DATA SHEET

POWSIL[™] 59800

| Version 6.1S | Page 3 / 10 | Revision Date 06.01.2021 |
|--------------|-------------|--------------------------|
|--------------|-------------|--------------------------|

Eye contact

Wash out immediately with fresh running water.

Ensure complete irrigation of the eye by keeping eyelids apart and away from eye and moving the eyelids by occasionally lifting the upper and lower lids.

Seek medical attention without delay; if pain persists or recurs seek medical attention.

Removal of contact lenses after an eye injury should only be undertaken by skilled personnel.

Skin contact

Immediately remove all contaminated clothing, including footwear.

Flush skin and hair with running water (and soap if available).

Seek medical attention in event of irritation.

Inhalation

If fumes, aerosols or combustion products are inhaled remove from contaminated area.

Other measures are usually unnecessary.

Ingestion

Immediately give a glass of water.

First aid is not generally required. If in doubt, contact a Poisons Information Centre or a doctor.

Advise for rescue team (PPE requirement for rescue personnel)

Wear portable respiratory protective devices if get into the scene of the accident.

Indication of any immediate medical attention and special treatment needed

Treat symptomatically.

SECTION 5: Firefighting measures

Extinguishing media

Water spray or fog. Foam. Dry chemical powder. BCF (where regulations permit). Carbon dioxide.

Special hazards arising from the substance or mixture

Carbon oxides, silicon oxides

Fire Incompatibility

Avoid contamination with oxidizing agents i.e. nitrates, oxidizing acids, chlorine bleaches, pool chlorine etc. as ignition may result.

Advice for firefighters

Fire Fighting

Alert Fire Brigade and tell them location and nature of hazard.

Wear full body protective clothing with breathing apparatus.

Prevent, by any means available, spillage from entering drains or water course.

Use water delivered as a fine spray to control fire and cool adjacent area.

DO NOT approach containers suspected to be hot.

Cool fire exposed containers with water spray from a protected location.

If safe to do so, remove containers from path of fire.

Fire/Explosion Hazard

SAFETY DATA SHEET

POWSIL[™] 59800

| Version 6.1S | Page 4 / 10 | Revision Date 06.01.2021 |
|--------------|-------------|--------------------------|
| | | |

Combustible.

Slight fire hazard when exposed to heat or flame.

Heating may cause expansion or decomposition leading to violent rupture of containers.

On combustion, may emit toxic fumes of carbon monoxide (CO).

May emit acrid smoke.

Mists containing combustible materials may be explosive.

Combustion products include:

Other pyrolysis products typical of burning organic material.

May emit corrosive fumes.

SECTION 6: Accidental release measures

Personal precautions, protective equipment and emergency procedures

Minor Spills

Clean up all spills immediately.

Avoid contact with skin and eyes, by using protective equipment.

Collect the leakage, place in a suitable, labelled container for waste disposal.

Major Spills

Alert Fire Brigade and tell them location and nature of hazard.

Use protective equipment to avoid contact with skin and eyes.

Contain spill with sand, earth or vermiculite.

Collect recoverable product into labelled containers for recycling.

Collect residues and seal in labelled drums for disposal.

If contamination of drains or waterways occurs, advise emergency services.

Personal Protective Equipment advice is contained in Section 8 of the SDS.

Measures for Preventing Secondary Contamination

Refer to section above

Environmental precautions:

See section 12

SECTION 7: Handling and storage

Handling Precautions for safe handling Safe handling Avoid all personal contact, including inhalation. Wear protective clothing when risk of exposure occurs. Use in a well-ventilated area. Prevent concentration in hollows and sumps. DO NOT enter confined spaces until atmosphere has been checked.

Exposure controls

Appropriate engineering controls

Engineering controls are used to remove a hazard or place a barrier between the worker and the hazard. Well-designed engineering controls can be highly effective in protecting workers and will typically be independent of worker interactions to provide this high level of protection. General exhaust is adequate under normal operating conditions. Local exhaust ventilation may be required in specific circumstances. If risk of overexposure exists, wear approved respirator. Correct fit is essential to obtain adequate protection. Provide adequate ventilation in warehouse or closed storage areas. Air contaminants generated in the workplace possess varying "escape" velocities which, in turn, determine the "capture velocities" of fresh circulating air required to effectively remove the contaminant. Process controls which involve changing the way a job activity or process is done to reduce the risk.

Personal protection

Eye/face protection

Safety glasses with side shields. Chemical goggles. Skin protection See Hand protection below Hands/feet protection Wear chemical protective gloves, e.g. PVC. Wear safety footwear or safety gumboots, e.g. Rubber Body Protection See Other protection below Other protection below Other protection Overalls. P.V.C. apron. Eye wash unit. Respiratory protection Not Available

SECTION 13:Disposal considerations

Waste chemicals

Treatment must be in accordance with applicable Federal, State/Provincial, and Local regulations. Recycle as much as possible, try to avoid and reduce waste.

DO NOT discharge the waste into drains.

Contaminated packing materials

Packaging may contain residual chemicals, Treatment must be in accordance with applicable Federal, State/Provincial, and Local regulations.

Recycle or reuse of cleaned materials should be in accordance with applicable Federal, State/Provincial, and Local regulations.

Precautions for Transport

Attentions of operation, treatment and precautions of workers should be referred to the content of section 7 and section 8.
